INTRODUCTION

This compilation contains five sections: 1. Ontario totals; 2. General statistics for operating library boards by size and type; 3. Audio-visual services; 4. Capital operations; and 5. Non-operating library boards.

The figures reported were taken from the Annual Survey of Public Libraries 1981 returns from Ontario public libraries. The form and its accompanying instructions and definitions are appended to this compilation. Every effort has been made to ensure accuracy by checking information with libraries and with auditors' reports, but the validity of this final report depends upon the accuracy of data submitted.

Population is given as supplied in the Municipal Directory 1982. Populations (on Reserve only) for Indian Bands were supplied by the Department of Indian Affairs. Populations for the southern regional library system headquarters, the Simcoe County, Cooperative and the Metropolitan Toronto Library Board are reported as zero to avoid duplication in the Ontario totals; the population for the four northern regional library system headquarters is the unorganized population (as supplied by the Ministry of Treasury and Economics) of the region only and does not include organized population reported by the member libraries.

The Ontario total for population served shows the total population of the Communities that have passed public library by-laws and includes the population of municipalities with non-operating public library boards. Please note that a negative number reported under net current revenue results from a deficit larger than total revenue. Total expenditure is adjusting by subtracting contract receipts from the total to avoid duplication in the Ontario totals; a negative number results from total expenditures that are less than total contract receipts from other library boards.

To aid the Ministry in determining what data to publish in 1983, users of this compilation are requested to evaluate the usefulness of the data presented and to send their comments to:

INSTRUCTIONS AND DEFINITIONS FOR 1981
SURVEY OF PUBLIC LIBRARIES

The annual survey of public libraries reports from public libraries are for the tabulations, which are then made available to all libraries. Satisfactory completion of the reporting forms is one of the requirements for receipt of a 1982 Provincial library grant.

Deadline for Submission:

May 14, 1982

Number of copies to be submitted:

Two to: Ministry of Citizenship and Culture,
Libraries and Community Information Branch,
2nd Floor, 77 Bloor Street West,
Toronto, Ontario
M7A 2R9

Whom to contact for assistance:

Should you require advice or assistance regarding these instructions or the return, please call collect:

Eric C. Bow at (416) 965-2676

Rounding of figures:

All fiscal amounts are to be rounded to the nearest dollar.

Answer all questions:

In answering the form, the characters 'NA' and 'NC' should NOT be used; where a library does not hold the material for which data is requested or offer the service, a zero "0" or a dash "-" should be entered. If exact information is not available for an item, please enter your best estimate for the requested figure and indicate by a footnote that the figure is an estimate.

Library boards that did not operate a library in 1981 are instructed to answer questions 1 to 7 and then skip to questions 24 to 28. Funds paid to operating library boards for library service to residents in communities with "pro-forma" or non-operating library boards are to be reported in question 26 (d).

Regional library systems in Northern Ontario are requested to report on behalf of community libraries in unorganized communities. Figures for such community libraries are to be included in regional library system totals just as if these libraries were branches of the regional library system.

SECTION A. GENERAL INFORMATION

1. Legal Name of library board: Every public library shall be under the management, regulation and control of a board, which is a corporation under the name of "The (insert name of municipality) Public Library Board", "The (insert names of municipalities) Union Public Library Board", "The (insert name of County) County Library Board" or "The Board of the (insert name selected by the board and approved by the Minister) Regional Library System". The Public Libraries Act, R.S.O. 1980, C. 414, s. 3, 7, 46 and 39.

.....2

2. Name of Chief Librarian: The Chief Librarian shall be the Chief executive officer of the board. The Public Libraries Act, R.S.O. 1980, C. 414, s. 17.
3. Mailing address of library: The address to which the provincial grant cheque should be mailed.
4. Telephone number of library: Please give the telephone number of the person to contact (if necessary) concerning the information reported on this return.
5. Type of library board: Only one box should be checked. A library board established under The Public Libraries Act, R.S.O. 1980, C. 414, Part I, whether it is a municipal, union or Indian band library - operating or non-operating - should check box two (2). A library board established under The Public Libraries Act, R.S.O. 1980, C. 414, Part IV, whether it is a county or regional municipality, should check box four (4). A regional library system board established under The Public Libraries Act, R.S.O. 1980, C. 414, Part III, should check box five (5).

7. Population served by the library: Population is to be taken from the most recent enumeration reports completed by your local Ministry of Revenue assessment office. DO NOT include residents of municipalities with non-operating or pro-forma library boards with which your library contracts and DO NOT include non-resident borrowers. Regional library systems, The Metropolitan Toronto Library Board and the Simcoe County Co-operative are not to report population figures except for unorganized populations in northern Ontario.
8. (a) Permanent locations: Report as permanent locations only those locations administered by your library board that meet all of the following conditions:
 - (i) separate quarters
 - (ii) a permanent basic collection of books
 - (iii) a permanent staff, and
 - (iv) a regular schedule for opening to the public. Include the main library and all branches. Service units that are NOT OPEN TO THE PUBLIC are NOT to be reported as permanent locations. DO NOT include bookmobiles, mobile unit stops or deposit stations. Northern regional library systems are to report on behalf of unorganized community libraries here.

NOTE: A former bookmobile set up on blocks so that it is no longer mobile, but is still used to serve the public, is to be reported as a permanent location.

Mobile Stations: Each vehicle or bookmobile is to be counted if it serves users directly. DO NOT count as mobile stations, vehicles used for purposes other than providing library service directly to the public, such as those used solely to move library materials from one library branch to another. DO NOT report the number of locations at which the vehicle stops; mobile station stops are reported below in question 8 (b).

8. (b) Mobile station stops: Report the number of places at which bookmobiles or other mobile units stop periodically to provide library service. DO NOT report the number of stops per day, per week, per month or per year.

9. Number of....locations....deposit....library material:

Report public library agencies in stores, schools, factories, clubs or other organizations or institutions, with small and frequently changed collections of books, and open to the public at certain designated times. Count locations NOT the number of times the collection is rotated. DO NOT include libraries under another public library board or locations reported in question 8. Deposits placed in other libraries or outlets NOT under your library's administration are to be reported as Bulk loans in question 16.

10. Self-explanatory.

SECTION B. HOLDINGS

Only materials owned by your library board are to be reported in this section. DO NOT report materials placed in your library on deposit and owned by another library NOT under your library's administration.

11. (a) Books and other print material catalogued as books:

- A volume is a physical unit of any printed, type-written, handwritten, mimeographed or processed work contained in one binding or portfolio, hardbound or paperbound, which has been catalogued, classified and/or made ready for use.
- Count incomplete volumes of serials, newspapers and periodicals as if completed.
- Report the library's catalogued collection(s) of books and other print materials that are catalogued in the same manner as books and that are interfiled with, or that may be interfiled with books. For example, a government document or a yearbook that has been catalogued as a book and shelved with books is to be reported as book stock. Collections of government documents, pamphlets, paperback books, technical reports, manuscripts, memoirs, proceedings, transactions of societies, monographic and publishers' series, etc., that are NOT catalogued in the same manner as books should NOT be reported as book stock.
- For reporting purposes, a title is a publication which forms a separate bibliographic whole, whether issued in one or several volumes, reels, discs, slides or parts. It applies equally to printed materials, such as books and periodicals, as well as to audiovisual materials and microforms. A library will always have a greater number of volumes than titles even if it does not buy multiple copies since a single title often may have several volumes: i.e., the Encyclopedia Canadiana is counted as one (1) title, but as ten (10) volumes.

- For titles, report the number of items for which a separate shelflist card has been made. (SHELFLIST: A record of materials in a library, arranged in the order in which the materials stand, when they are shelved or stored.) Thus, six copies of the same edition of a title count as one title; two editions of the same title which have been catalogued or recorded separately count as two titles; a set of six items for which six shelflist cards have been made count as six titles; and two sets of the same edition for which one shelflist card has been made count as one title.

- METHOD FOR ESTIMATING THE NUMBER OF TITLES IN THE COLLECTION:

A library which does not maintain a title count of its various collections, and that cannot easily count the number of separate shelflist cards, should use the following statistically sound method for estimating this count.

1. Count the number of titles in one inch of the shelflist cards in the shelflist;
2. Repeat step one at random intervals (e.g., count one inch in every foot) throughout the shelflist;
3. Average the number of titles per inch;
4. Multiply the average titles per inch by the number of inches of cards in the shelflist.

- Report the library's collection(s) of books and other print materials catalogued as books held at the end of the reporting period by language: i.e., English, French or other. These volumes should also be included in the total for volumes of catalogued print materials held at the end of the reporting period.

(b) Volumes of catalogued reference material held:

- Report books and other print material which normally may not be borrowed for use out of the library, either because their nature is such that they are prepared for brief consultation, rather than for continuous reading or because they belong to a reference collection. The number of volumes of reference materials held at the end of the reporting period should also be included in the total volumes of catalogued print materials held at the end of the reporting period, question 11(a) (11i).

11. (c) Total volumes of uncatalogued paperbacks held:

- Report publications bound between paper covers that are uncatalogued and have not been reported above.

(d) Number of titles of serials, newspapers, periodicals being received:

- A title is a publication which forms a separate bibliographic whole, whether issued in one or several volumes, reels, discs, slides, or parts.
- Count the number of different titles being received at the end of the reporting period, including gift subscriptions and those being received by exchange. For example, if the library received 3 copies of TIME and 4 of MACLEAN'S, the number of titles is 2 NOT 7. The number of current titles of periodicals on microfilm are also to be included. For example, a subscription to the Globe and Mail on microfilm is recorded as one title here but NOTE also as 26 reels in question 12 (a) below.

(e) Linear metres of uncatalogued print materials:

- Report pamphlets, vertical file materials and other uncatalogued publications, NOT reported above, in terms of linear metres. In order to convert a measurement in feet to one in metres, multiply the feet by 0.3 (i.e. 10 ft. (10 x 0.3) equals 3 metres).

12. Micromaterials:

- Report any library material which has been photographically reduced in size for storage and protection purposes, and which must be read with the help of enlarging instruments, e.g., microfiche, microstat, aperture card, microfilm, microstrip, etc. Count the units as entered in shelf list or identified by accession number, whether this be reels, sheets, cards, cassettes, etc.

13. Audiovisual materials:

- Report library materials which require the use of special equipment in order to be seen and/or heard. Count the units as entered in shelf list or identified by accession number, whether this be disc, album, cassette, reel, card, etc. DO NOT report any single type of audiovisual material twice; each type of audiovisual material should be reported as one and only one type of materials. For example, talking books are NOT to be included in the figure reported for sound recordings. Report only materials owned by your library board. DO NOT report materials placed in your library on deposit and owned by another library NOT under your library's administration.

14. Other non-book materials:

- Non-book library materials are materials which do not require the use of special equipment in order to be seen and/or heard. Include flat pictures, dioramas, globes, artifacts, specimens, postcards, maps, jigsaw puzzles, etc. Count the units as entered in shelf list or identified by accession number, whether this be sheets, cards, sets, maps, representation, etc. DO NOT count pieces of audiovisual or office equipment even if these are available for loan to the public.

SECTION C. LOAN TRANSACTIONS

15. Direct circulations:

Count as items circulated only those items charged out from your own permanent or permanent deposit collection(s) for use outside the library, whether these items are actually used inside or outside the library. Count one for each item lent directly to library users and one for each renewal. Please NOTE that, for films, it is bookings and NOT screenings that are to be reported; consideration is being given to collecting screenings and audience figures in future annual surveys. DO NOT count items sent to another library agency under your administration or items sent to or received from another library agency not under your administration.

16.

Bulk loans:

Report the items provided (including films and a/v) in rotating collections and other bulk loans from your own permanent or permanent deposit collection to other libraries or outlets NOT under your library's administration. For example, if your library placed 4 different bulk loans of 125 items each in a neighbouring municipality during the reporting period, you would report 500 items provided to other libraries. DO NOT report bulk loans received from libraries, library agencies and other sources.

17.

Inter-library loans:

- Inter-library loans are loans of materials (audio-visual, book, film, etc.) sent in answer to specific title, author or subject requests made between libraries or library agencies that are NOT under the same administration. To avoid double counting, regional library systems and resource libraries that serve as clearing centres for inter-library loan requests are NOT to report transactions made on behalf of other libraries; only count items lent to other libraries made from your own permanent or permanent deposit collection(s) and items borrowed from other libraries for circulation directly to the user originating the request.

- Items borrowed: Only those libraries receiving library materials (include a/v and films) or copies thereof, for circulation directly to the user originating the request are to record items as being borrowed from other libraries. DO NOT count bulk loans received.

- Items lent: Only those libraries supplying library materials (include a/v and films) or copies thereof, from their own permanent or permanent deposit collections are to record items as being lent to other libraries. DO NOT count bulk loans provided to other libraries here; bulk loans provided are to be reported in question 16.

- Copies: Count as copies only those mechanically reproduced materials sent or received instead of original material. DO NOT count photocopy pages; count items as if the original material had been sent or received; i.e., one specific request requiring several pages of photocopy should be counted as one loan transaction. DO NOT count Telex or dial access transactions as copies.

SECTION D. REFERENCE TRANSACTIONS

18. Reference transactions:

- Figure should be a total for the main library and all service points.
- Only the library at which the original request was made should count the reference transaction.
- A reference question is any request for information or aid which requires the use of one or more sources to determine the answer or which utilizes the professional judgment of the librarian. Include ready reference, literature searches and reading aid. A contact that includes both reference and directional services should be reported as one reference question. Duration should not be an element in determining whether a transaction is reference or directional. DO NOT include questions the answers to which involve giving directions for locating, within the library, staff patrons or physical features, lending pencils, etc., and giving assistance of a non-bibliographic nature with machines.
- A typical week is a week in which the library is open its regular hours for general users, containing no holidays.
NOTE: ONTARIO LIBRARIES WILL BE ASKED TO COUNT THE NUMBER OF PEOPLE ENTERING THE LIBRARY PLUS THE NUMBER OF TELEPHONE, MAIL, TELEX, ETC., REQUESTS FOR SERVICE DURING A WEEK TO BE SPECIFIED IN THE FALL OF 1982 IN CONNECTION WITH DETERMINING USERS STATISTICS. THIS SPECIFIED WEEK IN WHICH USERS ARE TO BE COUNTED WILL ALSO BE CONSIDERED THE 'TYPICAL WEEK' FOR COUNTING REFERENCE QUESTIONS.

SECTION E. LIBRARY PHYSICAL FACILITIES

19. Net area in square metres assigned for library purposes:

Report the total space which can be put to use in furtherance of the library's mission. Include the sum of all areas on all floors of the building that have been assigned to or are used for library functions or purposes. Include space for readers and reading areas, bookstacks and related storage areas for the book collections, audio-visual materials, and other materials, working spaces for staff, space for services to users (including the card catalogue), public service desks, copying equipment, audio-visual equipment, other library equipment, aisles between bookstack ranges and library furnishings and similar useful space. For multiple-use buildings, DO NOT include vestibules, lobbies, or traffic areas, janitorial or custodial storage or service areas, toilets, elevator or stairway space, building corridors, or similar space not specifically used for library functions. Regional library systems are to include headquarter's space, even though the headquarters does not serve the public directly and, hence, is not reported as a permanent location; similarly, public libraries are to include space in administrative or technical service buildings. In order to convert a measurement in square feet to one in square metres, multiply the former figure by 0.09 (i.e., 1,000 sq. ft. (1,000 x 0.09) equals 90 square metres).

- If there is no single service point designated as the "main library", report total net area for all service points in the space provided for "all other service points" - Question 19(b).

20. Total number of seats normally available to library users:

Report the number of seats available for library users including - general reading area seats, lounge seats, group study seats, audio-visual area seats, typing room seats, seminar room seats (when available on an open basis), etc., include non-chair seating, such as bean bags, benches, or pillows in children's rooms, if they are in place at all times. DO NOT include seats at card catalogue reference tables. Other 'non-study' seats, seats in locked rooms not normally open to library patrons (such as auditorium or general meeting room seats), folding chairs, carpet squares, etc.

- If there is no single service point designated as the "main library", report total seats normally available to library users in the space provided for "All other service points" - Question 20(b).

SECTION F. REGULAR LIBRARY HOURS

21. Total hours main library regularly open per week:

Report the regular winter schedule for opening to the public. Include the total number of hours open from Monday to Friday under Weekdays, the total hours open Saturday and the total number of hours open Sunday. For example, a library is open to the public from noon to 6 p.m. on Monday, Tuesday, and Wednesday, from noon to 9 p.m. on Thursday and Friday, and from 9 a.m. to 6 p.m. on Saturday during the period from Labour Day to Victoria Day (the rest of the year it is on summer hours), and from 2 p.m. to 5 p.m. on Sunday for the period from Thanksgiving to Victoria Day (The rest of the year it is closed on Sunday.); it would report: Weekdays 36 hours; Saturday - 9 hours; Sunday - 3 hours; Total per week - 48 hours.

- If there is no single service point designated as the "main library", the total hours open for all service points should be reported in the space provided for "Total hours of all other service points regularly open per week" - Question 22.

22. Total hours all other service points regularly open per week:

Follow example given in the instruction for question 21 to arrive at a 'total per week' for each service point and report total for all service points. DO NOT include main library in total if the main library's hours have been reported above in question 21.

SECTION G. LIBRARY PERSONNEL

23. Number of positions filled:

- Professional librarians are those individuals who possess professional qualifications (usually a post-graduate degree) in librarianship and who are employed in positions which require training and skill in theoretical or scientific parts of the library's work: i.e., holding an ALA, BLS, FLA MLS, etc.

- Other professionals are those individuals who possess professional qualifications in non-library science disciplines (accounting, audio-visual, business administration, computer science, education, media instruction, etc.) and who are paid on a scale equivalent to that for professional librarians.

- Library technicians/library assistants are those individuals who have formal training in librarianship (a certificate or diploma from a college, or other library arts programme) but do not possess professional qualifications.
- Include as "support Staff", all other staff not reported above. Report only staff paid out of the library payroll. The figure should include the individual in charge of the library where this individual lacks a certificate, degree or diploma, administrative support personnel, clerks, pages, receptionists, secretaries, students and typists. DO NOT include personnel employed under special work programmes such as 'Experience'. Include physical plant or maintenance workers, only if paid out of the library payroll; exclude maintenance staff provided by contract or local government.
- A full-time position filled is a position both designated as such and one being continuously occupied at least 35 hours per week throughout the regular working year. ANY POSITION NOT MEETING THIS CRITERION IS TO BE REPORTED AS A PART-TIME POSITION.

- Part-time positions filled in full-time equivalents - to compute 'full-time equivalents' of part-time employees, take the number of hours worked per year by a part-time employee and divide by the annual number of working hours of a full-time employee (NOTE: If the library is open less than 35 hours a week, and thus manned less than 35 hours a week, divide by 1,820). Show result to two (2) decimal places.

Examples:

- (a) A student who works 40 hours per week from June to August (14 weeks) in a library, having a 40-hour work week, is computed, as follows: 40 times 14 equals a yearly total of 560 divided by 2,080 (40 x 52) equals 0.27 FTE's.
- (b) A part-time employee who works 20 hours per week in a library, having a 40-hour work week, is computed as follows: 20 times 52 equals a yearly total of 1,040, divided by 2,080 (40 x 52) equals 0.50 FTE's.
- (c) A student who works 20 hours per week from September to May (33 weeks) in a library having a 40-hour work week, is computed as follows: 20 times 33 equals a yearly total of 660, divided by 2,080 (40 x 52) equals 0.32 FTE's.
- (d) An employee who works full-time for only part of the fiscal year, would be computed in the same manner as the summer student in example (a).
- (e) An employee who works 20 hours a week in a library open only 20 hours a week, is computed as follows: 20 times 52 equals a yearly total of 1,040, divided by 1,820, equals 0.57 FTE's.
